PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building scalable full-stack web applications using React.js, Node.js, Express.js and MongoDB. Skilled in developing responsive UI, REST API development, CRUD operations, and API integration. Strong understanding of JavaScript ES6+, React Hooks, MVC architecture, and client-server communication. Seeking an entry-level Frontend or Full Stack Developer role to contribute to high-performance web applications. Eager to learn new technologies and contribute to real-time projects.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend Technologies: React.js, React Router, Bootstrap, Responsive Design

Backend Technologies: Node.js, Express.js, MVC Architecture

Database: MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman, Chrome Dev Tools, Figma, NPM

Concepts: REST APIs, Responsive Design, Component Architecture, CRUD Operations, UI/UX Principles, Cross-browser Compatibility, Basic knowledge of Redux / State Management, Problem Solving, Debugging, Logical Thinking

Deployment: Netlify, Vercel

PROJECTS

Enquiry Management Platform | React.js, REST API, Bootstrap

- Built a responsive Enquiry Management Platform handling 100+ records with dynamic filtering and pagination.
- Implemented full CRUD operations reducing manual effort and improving data handling efficiency
- Improved UI responsiveness through media queries and Flexbox.

Netflix Clone – GitHub Link: <https://github.com/VaduguKoteswararao/netflix-clone.git>

- Built a pixel-accurate Netflix UI with dynamic content fetched from TMDB API including carousels
- Integrated Firebase Authentication (Sign Up / Login / Logout) with protected routing via React Router.
- Implemented responsive layout — fully functional across mobile, tablet, and desktop screen sizes.

University Website – GitHub Link: <https://github.com/VaduguKoteswararao/edusity.git>

- Developed a multi-page institutional website covering courses, departments, faculty, and contact sections.
- Implemented fully responsive design using CSS Grid and Flexbox — optimized for all device sizes.

Moto Essentials Delivery App — UX Design | Figma

- Designed wireframes, user flows, and interactive prototypes for a motorbike accessories delivery app.
- Created 10+ screens covering onboarding, product discovery, cart, and checkout with a clean mobile-first UI.

EDUCATION

Bachelor Of Technology — Mechanical Engineering | Amrita Sai Institute Of Science & Technology

- CGPA: 8.25 / 10.0 | Graduated: May 2024
